Christopher Greenwald joined UBS as Head of SI Research, Sustainable and Impact Investing team, in February 2017.

Christopher led the sustainability research efforts at RobecoSAM, as Head of Sustainability Investing Research where he managed a team of sector specialists responsible for the integration of sustainability into the investment process. Previously, he headed the Sustainability Application and Operations team, overseeing RobecoSAM's sustainability assessment for the Dow Jones Sustainability Indices.

Prior to joining RobecoSAM, Christopher was Director of ESG Content Strategy for ASSET4 / Thomson Reuters where he managed the research and was responsible for the integration of sustainability data at Thomson Reuters.

Christopher Greenwald holds an MBA from HEC Lausanne as well as a Certificate in Financial Asset Management Engineering from the Swiss Finance Institute. He also holds a Ph.D. in political science from Duke University and has previously taught at the University of Chicago.
